1	Where will the sessions be conducted?	The HAZOP and QRA study is intended for AGL-authorized GAs, i.e., Indore (including Pithampur, Mhow and Ujjain) and Gwalior.
2	Will the HAZOP sessions be conducted in a single stretch for all 45 CNG stations, or will they be split into multiple visits (e.g., 10 stations per visit)?	The study will not be conducted in a single stretch. It will be carried out on an as-and-when-required basis over a period of two years, as per the tender conditions.
3	How many visits we need to consider for all 45 CNG Stations workshops?	One training session is required at the Head Office (HO) to brief the team on the methodology of HAZOP and QRA before initiating the study. One visit is required for a technical meeting and site visit at the indore Location. For the remaining part of the study, activities will be carried out on as-and-when required basis, including remote desktop support.
